DE NEEF®
INJECTION MATERIALS

When Money Is Measured In Minutes

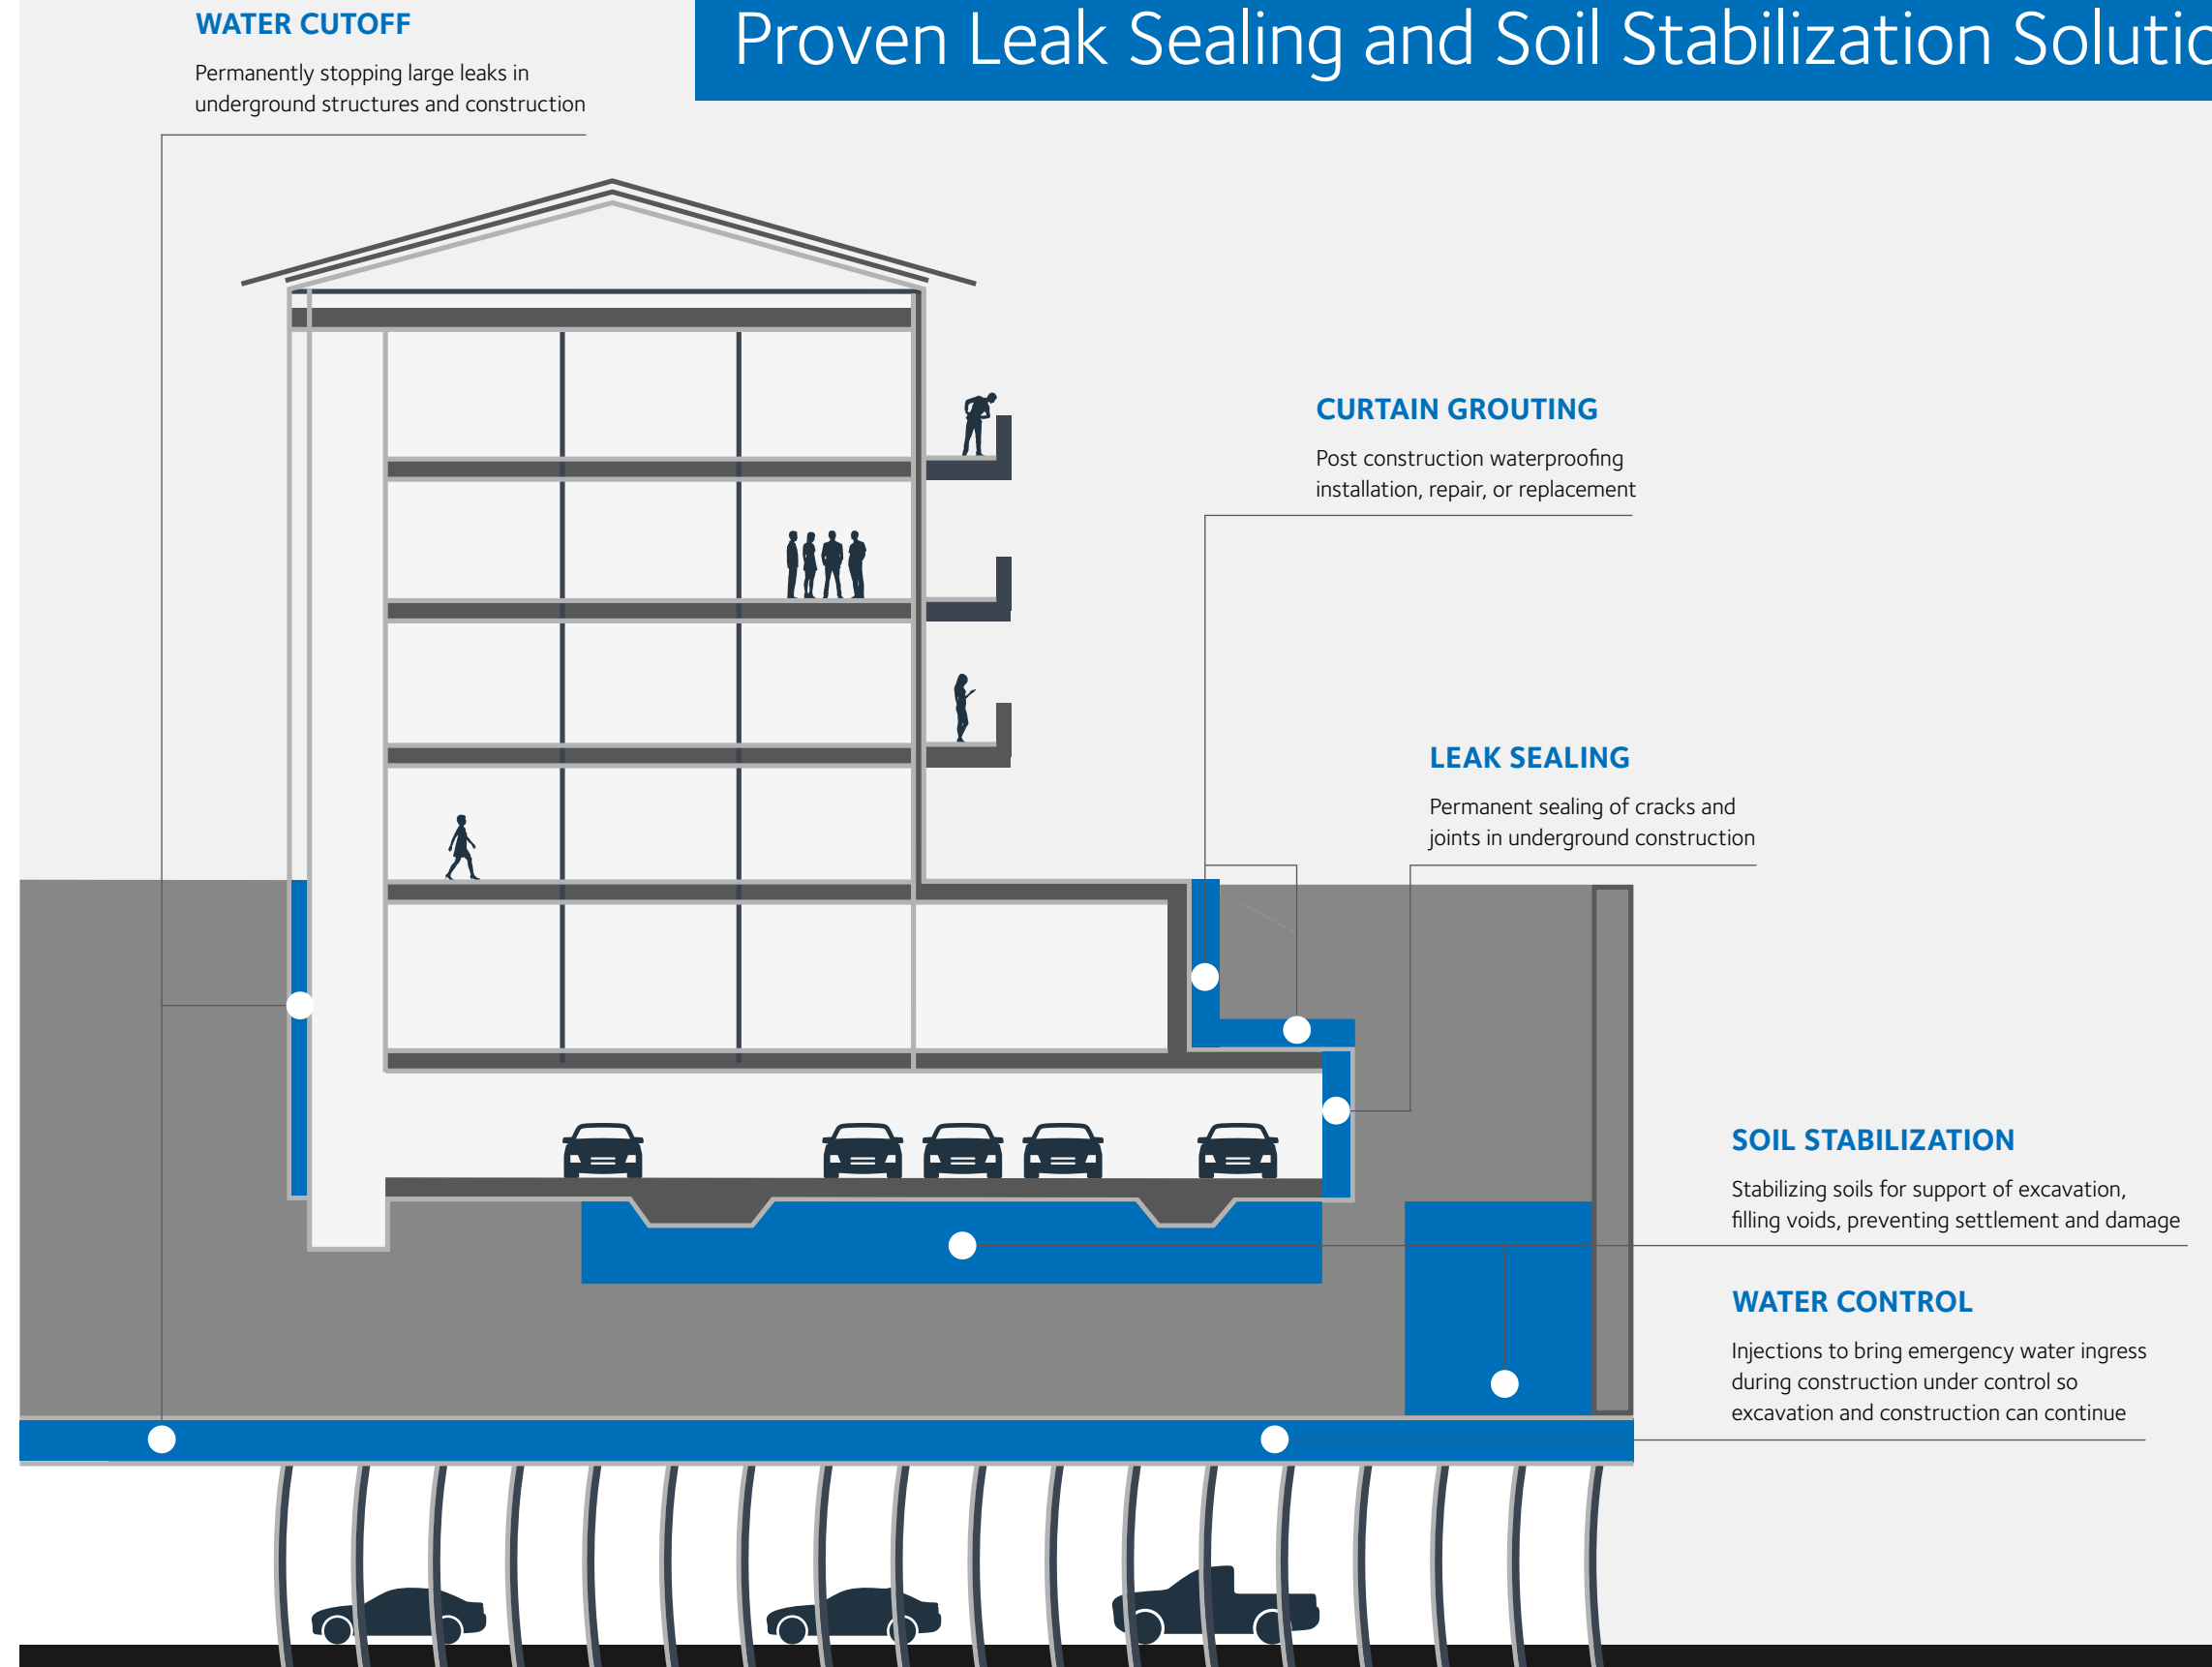

Underground construction is a deadline driven-business. Problems that impact your schedule need to be solved quickly and permanently.

Injection Technologies

DE NEEF® injection materials are developed to bring the shortest possible injection cycles and give lasting solutions that reduces the risk of recurrence to the absolute minimum.

- High-quality raw materials prevent dilution and provide consistency
- Balanced viscosity and reaction profiles combine to bring the fastest leak sealing technology available
- Durable and environmentally friendly to last the lifetime of your structure

Proven Leak Sealing and Soil Stabilization Solutions.

Solutions For All Your Leak Sealing And Soil Stabilization Project Needs.
