

#1727 Pallet Oil Concentrate Data Sheet

Chemicals for Concrete Production Equipment

Product Description

#1727 Pallet Oil Concentrate is a blend of oxygenated hydrocarbons and water displacing chemicals that make an extremely effective pallet oil when combined with fuel oil, diesel fuel, or kerosene. #1727 Pallet Oil Concentrate can be used on all block pallets and other equipment where rust or concrete build-up is a concern.

When combined with fuel oil, #1727 Pallet Oil Concentrate meets the needs for a non-staining lubricant for ABC Curing Systems. #1727 Pallet Oil Concentrate lowers the push pressure on the hydraulic ram and improves lubricity resulting in a cleaner pallet conveyer.

Directions for Use

Mix one part of #1727 Pallet Oil Concentrate with up to 10 parts of fuel oil and stir vigorously for several minutes.

Packaging and Handling

55 U.S. gal (208 L) drums weighing 450 lbs (204 kg)

Health and Safety

All precautions defined on the SDS (Safety Data Sheet) for #1727 Pallet Oil Concentrate and the solvent used to dilute must be followed.

The hazards defined on the Safety Data Sheet (SDS) for #1727 Pallet Oil Concentrate will change significantly when diluted with any organic solvent.

Appropriate precautions will vary with actual in-plant conditions. Please refer to the SDS for #1727 Pallet Oil Concentrate and solvent prior to use. Consult local air quality regulations to assure that any solvent diluted #1727 Pallet Oil Concentrate complies with applicable VOC regulations.
