1 Identification

Product identifier

Trade name: Denefoam 200 Part A

SDS ID Number: 2405

Relevant identified uses of the substance or mixture, and uses advised against

Specialty construction product. Not intended for other uses

Details of the supplier of the safety data sheet

Manufacturer/Supplier:
GCP Applied Technologies
62 Whittemore Avenue
Cambridge, MA 02140 USA

GCP Canada, Inc.
294 Clements Road W.
Ajax, Ontario L1S 3C6 Canada

Information department:
Environmental Health & Safety
USA: +1-617-876-1400 (24 hours)
   +1-800-354-5414 (8AM - 5PM) Not functional within Massachusetts
CAN: 1-905-683-8561 (24 hours)
Email address: msds.gcp@gcpat.com

Transport Emergency: Chemtrec +1-800-424-9300 (24 hours)

2 Hazard(s) identification

Classification of the substance or mixture

Harmful if inhaled.
Causes skin irritation.
Causes serious eye irritation.
May cause allergy or asthma symptoms or breathing difficulties if inhaled.
May cause an allergic skin reaction.
Suspected of causing cancer.
May cause respiratory irritation.
May cause damage to organs through prolonged or repeated exposure.

Label elements:

Hazard pictograms

GHS07  GHS08

Danger

Hazard statements
Harmful if inhaled.
Causes skin irritation.
Causes serious eye irritation.
May cause allergy or asthma symptoms or breathing difficulties if inhaled.
May cause an allergic skin reaction.
Suspected of causing cancer.
May cause respiratory irritation.
May cause damage to organs through prolonged or repeated exposure.

**Precautionary statements**
Avoid breathing dust/fume/gas/mist/vapors/spray
[In case of inadequate ventilation] wear respiratory protection.
Wear eye protection / face protection.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
IF ON SKIN: Wash with plenty of water.
If skin irritation or rash occurs: Get medical advice/attention.
If eye irritation persists: Get medical advice/attention.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
IF exposed or concerned: Get medical advice/attention.

**Other hazards**

**Results of PBT and vPvB assessment**
PBT: Not applicable.
vPvB: Not applicable.

**3 Composition/information on ingredients**

**Chemical characterization: Mixture**

**Description:** Mixture of the hazardous substance(s) listed below with additional nonhazardous ingredients.

**Hazardous components:**

<table>
<thead>
<tr>
<th>Compound</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>9016-87-9 Diphenylmethanediisocyanate, isomers and homologues</td>
<td>50-100%</td>
</tr>
<tr>
<td>811-97-2 1,1,1,2-tetrafluoroethane</td>
<td>5.0-10.0%</td>
</tr>
<tr>
<td>5873-54-1 Diphenylmethane-2,4'-diisocyanate</td>
<td>2.0-5.0%</td>
</tr>
<tr>
<td>101-68-8 Diphenylmethane-4,4'-di-isocyanate</td>
<td>0.1-1.0%</td>
</tr>
</tbody>
</table>

**Additional information:** Non-hazardous ingredients may be listed in Section 15; Right-To-Know disclosure.

**4 First-aid measures**

**Description of first aid measures**

**General information:** Get medical advice/attention if you feel unwell.

**After inhalation:**
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

**After skin contact:**
Immediately wash contaminated skin with soap or mild detergent and water. If this chemical soaks clothing, immediately remove clothing and wash skin.
Trade name: *Denefoam 200 Part A*

**4.3.6 After eye contact:** Rinse cautiously with water for several minutes.

**After swallowing:**
Rinse mouth.
Do NOT induce vomiting.

**Information for doctor:**
Most important symptoms and effects, both acute and delayed *Irritating to eyes.*
Indication of any immediate medical attention and special treatment needed *No further relevant information available.*

---

**5 Fire-fighting measures**

**Special hazards arising from the substance or mixture** *No further relevant information available.*

**Additional information**
Heating of container(s) will cause pressure rise with risk of bursting and subsequent explosion (BLEVE).
Collect contaminated fire fighting water separately. It must not enter the sewage system.

---

**6 Accidental release measures**

**Personal precautions, protective equipment and emergency procedures**
Wear protective equipment. Keep unprotected persons away.

**Methods and material for containment and cleaning up:**
Contain and/or absorb spill with inert material (i.e. sand, vermiculite) then place in a suitable container.
Sweep up spilled product into receptacles.
Dispose contaminated material as waste according to section 13 of the SDS.

**Reference to other sections**
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

---

**7 Handling and storage**

**Handling:**

**Precautions for safe handling**
Prevent formation of aerosols.
Avoid contact with skin.
Avoid contact with eyes.

**Information about protection against explosions and fires:** *No special measures required.*

**Conditions for safe storage, including any incompatibilities**

**Storage:**

**Information about storage in one common storage facility:** *No special measures required.*

**Further information about storage conditions:** Keep receptacle tightly sealed.

**Specific end use(s)** *No further relevant information available.*
### 8 Exposure controls/personal protection

#### Additional information about design of technical systems:
No further data; see item 7.

#### Control parameters

<table>
<thead>
<tr>
<th>Component</th>

<td>811-97-2, 1,1,2-tetrafluoroethane</td>
<td>WEEL (USA) Long-term value: 1000 ppm</td>
</tr>
<tr>
<td>7727-37-9 nitrogen</td>
<td>TLV (USA) withdrawn TLV, see App. F; simple asphyxiant</td>
</tr>
</tbody>
</table>
| 101-68-8 Diphenylmethane-4,4'-di-isocyanate | PEL (USA) Ceiling limit value: 0.2 mg/m³, 0.02 ppm  
REL (USA) Ceiling limit value: 0.05 mg/m³, 0.005 ppm  
*10-min Ceiling limit value: 0.2* mg/m³, 0.02* ppm |
| TLV (USA) | Long-term value: 0.051 mg/m³, 0.005 ppm |

**Additional information:** The lists that were valid during the creation were used as basis.

#### Exposure controls

**Personal protective equipment:**

**General protective and hygienic measures:** The usual precautionary measures for handling chemicals should be followed.

**Breathing equipment:**

Control exposure to ingredients with workplace control parameters if mentioned above. If no ingredients are listed, respiratory protection is generally not required.

If exposure limits are listed and may be exceeded, use approved respiratory protective equipment and filter type appropriate for the listed ingredients. (NIOSH, CEN, etc.).

Due to the presence of isocyanate, supplied air respirators must be worn whenever the product is applied in poorly ventilated areas unless local exhaust will maintain exposures below acceptable limits. A chemical cartridge respirator with organic vapour cartridge is required when local exhaust is unavailable or inadequate to control exposures below required limits. When supplied-air respirators are not available or use is not practical, an air-purifying respirator may be an acceptable alternative if the recommendations below are followed:

- Use of fans to improve air circulation and general ventilation or exhaust ventilation to remove MDI vapours when working in confined spaces.
- The use of an air-purifying respirator fitted with organic vapour cartridge and a well managed cartridge change schedule. Due to the low exposure limits and poor odour warning properties, cartridges should be replaced on a daily basis at a minimum.

To complement the above, a viable isocyanate measurement system should be used to monitor workplace levels.

**Protection of hands:** Gloves should be worn to prevent skin contact and should be impermeable and resistant to the product.

**Material of gloves** Gloves should be worn to prevent skin contact and should be impermeable and resistant to the product.

**Eye protection:**

Safety glasses with side shield protection.

Safety glasses with side shields should be worn to prevent contact due to splashing. Under high vapor mist concentrations, tightly sealed goggles should be worn.

A face shield should also be worn if there is potential exposure to splash or spray.

**Body protection:**

Use personal protective equipment as required.
9 Physical and chemical properties

<table>
<thead>
<tr>
<th>Information on basic physical and chemical properties</th>

</table>

10 Stability and reactivity

**Reactivity** Stable under normal conditions.

**Chemical stability**

**Thermal decomposition:** No decomposition if used according to specifications.

**Possibility of hazardous reactions** Hazardous polymerization may occur.

**Conditions to avoid** Keep away from heat sources.

**Incompatible materials:**

Alcohol.

Amines, alkalines.
### 11 Toxicological information

#### Delayed and immediate effects and chronic effects from short or long term exposure

May cause damage to organs through prolonged or repeated exposure.

#### Information on toxicological effects

**Acute toxicity:**

**Primary irritant effect:**

- **on the skin:** Causes skin irritation.
- **on the eye:** Causes serious eye irritation.
- **inhalation:**
  - Harmful if inhaled.
  - Causes damage to organs.
- **Ingestion:** May cause damage to organs through prolonged or repeated exposure.

**Sensitization:**

- May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- May cause an allergic skin reaction.

**Additional toxicological information:** Suspected of causing cancer.

12 Ecological information

Toxicity
Aquatic toxicity: No further relevant information available.
Persistence and degradability: No further relevant information available.
Behavior in environmental systems:
Bioaccumulative potential: No further relevant information available.
Mobility in soil: No further relevant information available.

Additional ecological information:
General notes: Not known to be hazardous to water.

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.
Other adverse effects: No further relevant information available.

13 Disposal considerations

Disposal methods: Comply with Federal, State and local regulations.
Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Uncleaned packagings:
Recommendation: Disposal must be made according to official regulations.

14 Transport information

(Cont. on page 8)
**IMDG, IATA**

| Class | 2.2 |

**Environmental hazards:**
- Marine pollutant: No

**Special precautions for user** Not applicable.

**EMS Number:** F-C,S-V

**UN "Model Regulation":** UN1058, Liquefied gases, 2.2

### 15 Regulatory information

**SARA (Superfund Amendments and Reauthorization Act)**

**Section 302/304 (extremely hazardous substances):**
None of the ingredients is listed.

**Section 313 Reportable Ingredients (Chemicals present below reporting threshold are exempt):**

| 9016-87-9 Diphenylmethanediisocyanate, isomers and homologues | 84.0% |

**SARA Section 312/Tier I & II Hazard Categories:**
- Health Hazard - Carcinogenicity
- Health Hazard - Acute toxicity (any route of exposure)
- Health Hazard - Skin Corrosion or Irritation
- Health Hazard - Respiratory or Skin Sensitization
- Health Hazard - Serious eye damage or eye irritation
- Health Hazard - Specific target organ toxicity (single or repeated exposure)

**North America Chemical Inventory Status**

**TSCA (Toxic Substances Control Act - United States):**
All ingredients are listed or exempt from listing unless otherwise noted below.

**CEPA (Canadian DSL):**
All ingredients are listed or exempt from listing unless otherwise noted below.

**Right to Know Ingredient Disclosure:**
- 7727-37-9 nitrogen

**California Proposition 65**

**Chemicals known to cause cancer:**
None of the ingredients is listed.

**Chemicals known to cause reproductive toxicity for females:**
None of the ingredients is listed.

**Chemicals known to cause reproductive toxicity for males:**
None of the ingredients is listed.

**Chemicals known to cause developmental toxicity:**
None of the ingredients is listed.

**Carcinogenicity Categories**

**EPA (Environmental Protection Agency)**

| 9016-87-9 Diphenylmethanediisocyanate, isomers and homologues | CBD |
| 101-68-8 Diphenylmethane-4,4’-di-isocyanate | D, CBD |

**TLV-ACGIH (THE American Conference of Governmental Industrial Hygienists)**

**Human Carcinogen - A1 Confirmed, A2 Suspected, A3 Unknown Relevance, A4 Not Classifiable**
None of the ingredients is listed.
Trade name: Denefoam 200 Part A

43.2.6 NIOSH-Cancer (National Institute for Occupational Safety and Health)

None of the ingredients is listed.

Volatile Organic Compounds (VOC) reported per the Emission Standards.
If no g/L value is provided this product is not subject to above standard.

16 Other information

The data included herein are presented in accordance with various environment, health and safety regulations. It is the responsibility of a recipient of the data to remain currently informed on chemical hazard information, to design and update its own program and to comply with all national, federal, state and local laws and regulations applicable to safety, occupational health, right-to-know and environmental protection.
